POST MAN

TAILWIND CSS

MY PROJECTS

STACKOVERFLOW - CLONE

A public web-based platform building the definitive collection of coding questions & answers, to increase productivity, decrease cycle times, accelerate time to market, and protect institutional knowledge.

A developer community-based space to find & contribute answers to technical challenges, & one of the most popular websites in the world.

Front End Tools : ReactJs .

Server : NodeJs / ExpressJs .

Database : MongoDB.

LINK:=<https://kaleidoscopic-jalebi-2cc6e1.netlify.app/>

SOCIAL LOGIN - Google, Facebook, GitHub

Social Login is single sign-on for end users. Using existing login information from a social network provider like Facebook, Twitter, GitHub or Google, the user can sign into a third party website instead of creating a new account specifically for that website. This simplifies registrations and logins for end users.

Front End Tools : ReactJs

Server : NodeJs / ExpressJs .

Database : MongoDB.
